47 U.S.C. Section 160(c); WC Docket No. 18-141; Category 1**

Dear FCC,

It would be a bad idea for you to do this. The local businesses know the area they provide better and faster internet at a lower cost then the big providers do in some areas they don't even provide at all where the smaller companies will. Also, a small company provides fiber optic where the big company does not, and fiber is much faster.
